The Grab: How the Fraud Began

The Birth Certificate Trap

At birth, a legal name is assigned without consent, creating a corporate proxy. This system operates under Admiralty law, treating individuals as vessels on the high seas. The fraud begins before awareness, binding free will through documentation.

Key insight: Your true entry into this world occurred at first breath, when lungs and heart activated—not at the moment of birth certificate registration.

The Intent to Defraud

Pre-programmed interference creates a transceiver between your living being and a dead corporate entity. Intent to defraud voids all contracts—nunc pro tunc ab initio (now for then, from the beginning).

Baby Step: Journal this affirmation: "My first breath was my true entry—I reclaim it now."

The Witness Power: Dead vs. Living

In any legal proceeding, all those using legal names and thinking they are a name, operate as dead corporate entities, proxies without true consciousness. Understanding this distinction is fundamental to reclaiming sovereignty.

Drive Free: Full Responsibility, No Worry

When you stand in truth, the Universe clears paths for you. Operating a vehicle becomes an act of full responsibility without the burden of fraudulent legal obligations. This isn't about recklessness—it's about recognizing that fear-based systems have no hold over sovereign beings.

Truth Standing

The Universe recognizes and supports those who operate in truth. Accidents and complications arise from fear and doubt, not from sovereign action.

Full Responsibility

Taking responsibility means acting with care and awareness, not submitting to fraudulent authority. You answer to natural law, not corporate fiction.

Faith Over Fear

"Ye have little faith" applies here. Stand in love and certainty. The Universe has your back when you operate from truth.

Break the Habit: Rename Without the System

Choose Your Own Moniker

Legal name change through the system is jumping from fire to pot. Instead, choose your own name—a nickname or self-selected moniker. This breaks the program cold turkey.

- Not God-given, not legal twin
- Oil and water: sound the same, essence different
- No permission needed for good on this planet

Self-Determination

Your name is your choice, not a government assignment

Habit Breaking

Stop responding to the legal name immediately

Fresh Start

Answer to your chosen name consistently

Fraud-Proof Responses

When bills and legal notices arrive addressed to the legal name, you have powerful options. These documents presume you are the dead corporate entity. Your response can shatter that presumption.

1

Window Envelopes

These constitute illegal presumption. The visible name through the window assumes your consent to be that entity.

2

Return to Sender

Mark correspondence "Deceased" or "Return to Sender—No Such Entity." You are not the name on the envelope.

3

Proof of Fraud

Scan your birth certificate and attach it as "Proof of Fraud" to any response. This document evidences the original theft.

The Babylon System

These institutions operate under a fallen system. Your non-participation in their fraud is not rebellion—it's truth standing.

"Babylon Has Fallen" applies to all fraudulent legal systems attempting to bind living beings.

Lack of knowledge fueled the system—stop dancing

Your name means your path—take it back

4 Stand Firm

Harm & Repercussions

Universal and physical consequences exist for actual harm. Remain honorable.

No Permission Needed

Roadmap Hijacked

The system hijacked your way. Reclaim your path through knowledge.
